Last Modified 04^h December 2019

Highlights of Changes in 1.3.5

ID: 4851 Support manually key in by Item Barcode, Item Package Barcode and Set Meal Barcode

Manually key in Item Code field are now accept Item Barcode, Item Package Barcode and Set Meal Barcode as well.

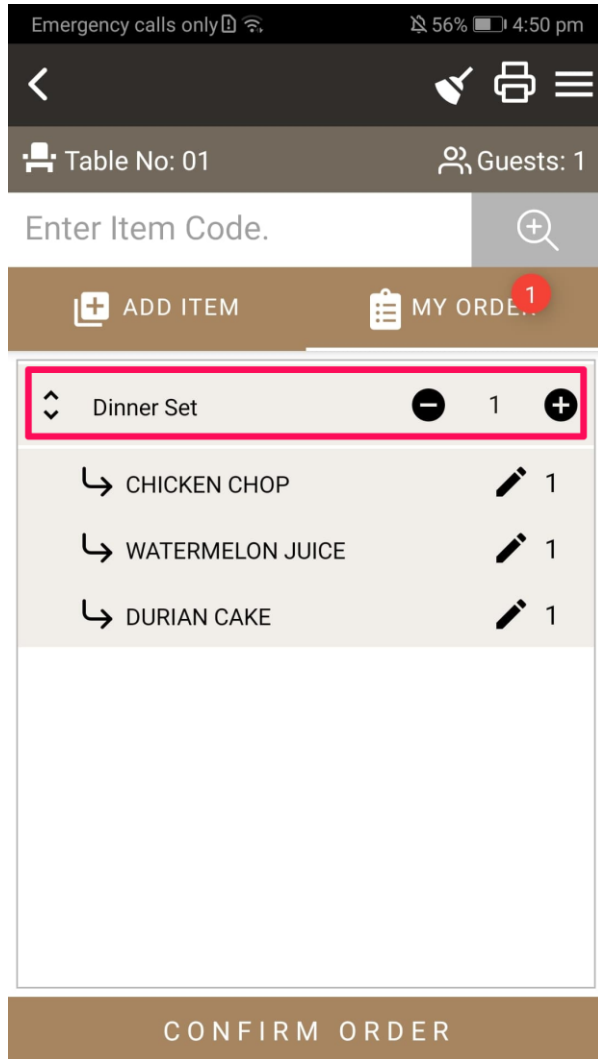

Note: You have to maintain your Item, Item Package and Set Meal barcode number at back-end system and perform sync to front-end in order to search those barcode over here.

ID: 5254 Support Item Package and Set Meal promotion

Once you set your Item Package or Set Meal Promotion at back-end, and then insert the Item Package or Set Meal with promotion with our eWaiter apps, the promotion will be captured.

Example of Set Meal item with 10% promotion maintained in back-end and key in at eWaiter.

After saved the transaction at eWaiter, and then recall that transaction at front-end and you will see the promotion is applied successfully.
