2. Enhanced the ESS portal for leave details viewing.

Show the leave time for half day leave taken either for AM or PM.

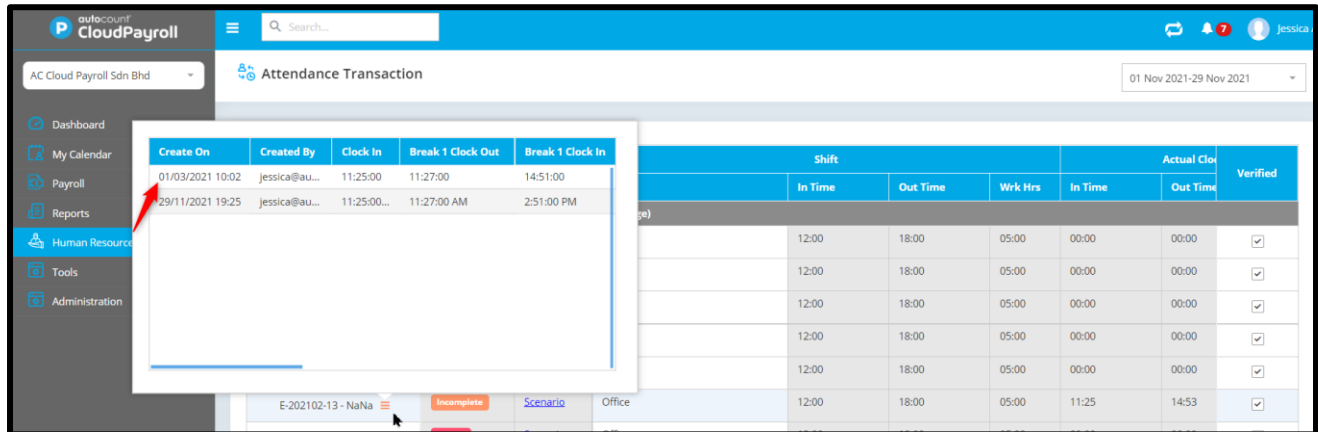

3. New CP22 income tax report format.

4. Added employee's bank account number field into payslip report format.

5. Change on the file name for PBB Electronic Bank File format for Socso Payment.

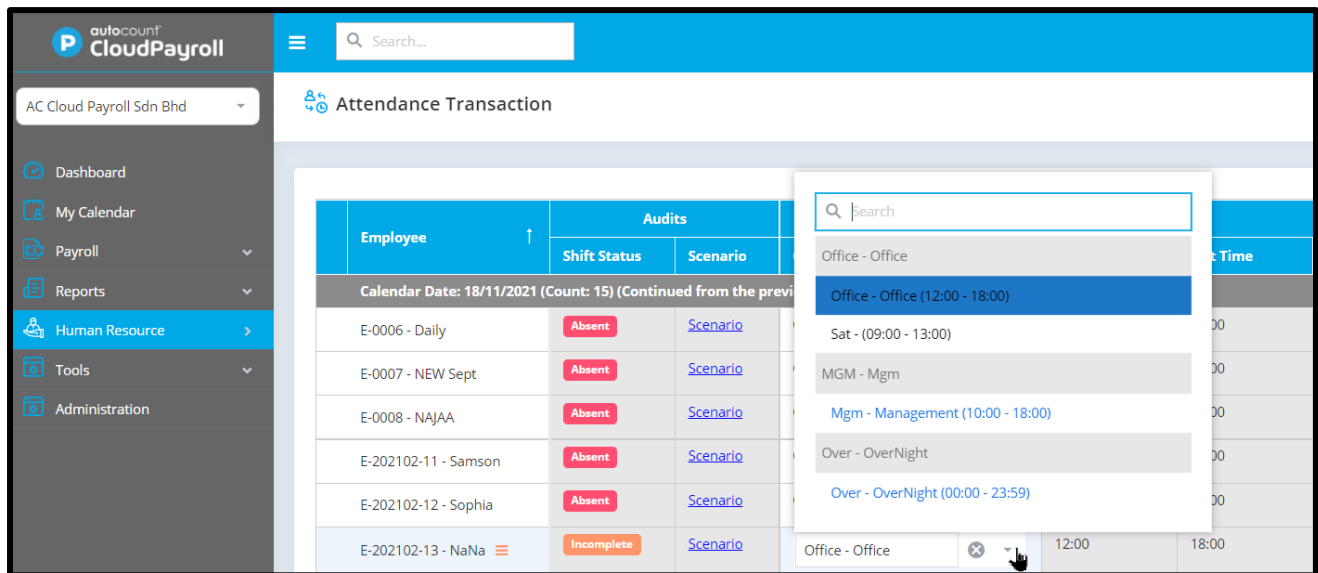

6. Added first changed logs data for TA transaction.

User now may compare the changed data logs with the original data assigned on the system for time attendance.

7. Allow user to change the schedule on attendance transaction.

Now user may able to change on the shift schedule after day end at attendance transaction screen.

8. Calendar 2022

List of public holidays for year 2022 is now available in the system.

Bugs Fixed

1. Fixed duplicated adhoc paid items in payroll process for commission, claim and bonus.
2. Fixed user invitation issue at employee maintenance.
3. Fixed commit and uncommit payroll process issue.
4. Fixed excel import slow performance issue.
5. Fixed logout button in side menu is not function.
6. Fixed null error for child relief points in payroll process.
7. Fixed delete employee during filter in PPV2.
