

Highlights of Changes in 2.0.19.162

Date and Time Filter at Stock Balance

This feature is only available if the user had installed POS and enabled POS module. User can now filter according to time while inquiring for Stock Balance Report (Refer Figure 1). This is useful for POS as sometimes user might want to check stock balance according to time. User can access Stock Balance at **Menu → Stock → Stock Balance Report**.

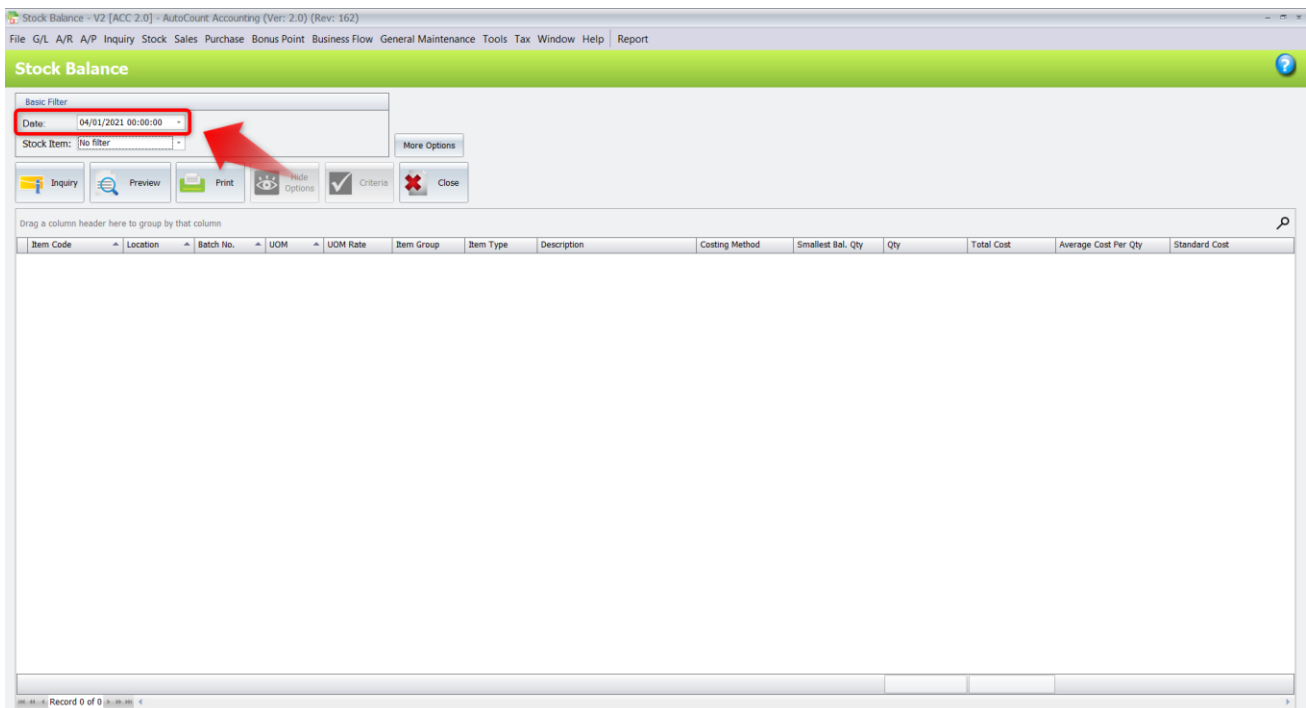

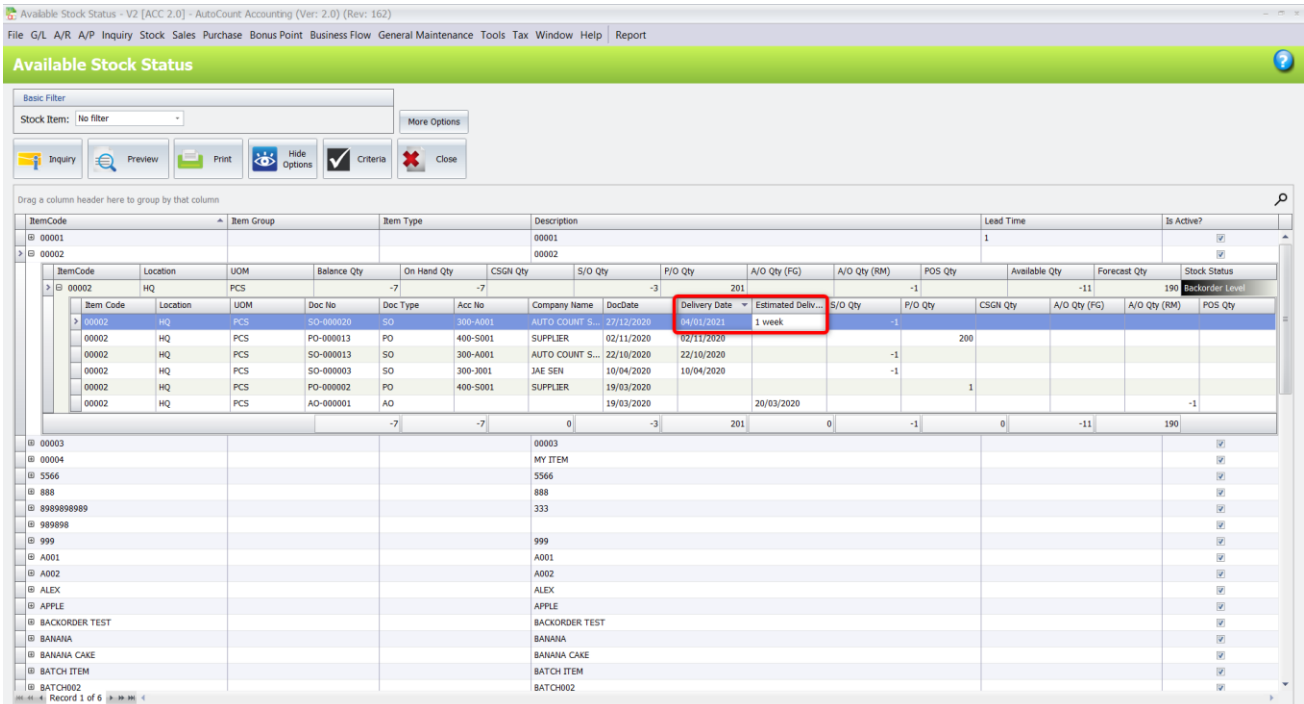

Figure 1

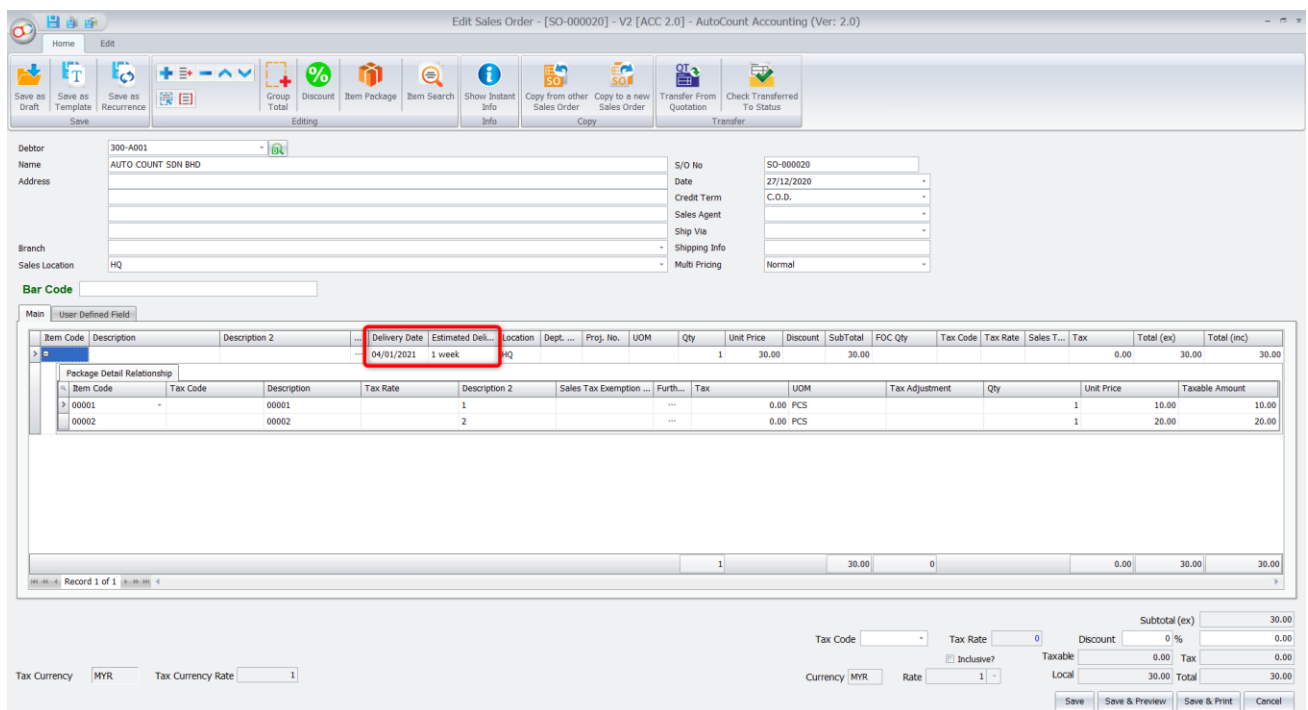

Delivery Date and Estimated Delivery Date for Item Package's Item at Available Stock Status

In this version onwards, we had improved Available Stock Status Report by capturing item package Delivery Date and Estimated Delivery Date (Refer Figure 2 & 3) for those items under package. User can access Available Stock Status at **Menu → Stock → Available Stock Status Report**.

Item Code	Location	UOM	Balance Qty	On Hand Qty	CSIGN Qty	S/O Qty	P/O Qty	A/O Qty (FG)	A/O Qty (RM)	POS Qty	Available Qty	Forecast Qty	Stock Status
00002	HQ	PCS	-7	-7		-3	201			-1		-11	190
00002	HQ	PCS											
00002	HQ	PCS											
00002	HQ	PCS											
00002	HQ	PCS											
00002	HQ	PCS											

Figure 2

Item Code	Description	Description 2	Delivery Date	Estimated Deliv...	Location	Dept. ...	Proj. No.	UOM	Qty	Unit Price	Discount	SubTotal	FOC Qty	Tax Code	Tax Rate	Sales T...	Tax	Total (ex)	Total (inc)	
00001			04/01/2021	1 week	HQ				1	30.00		30.00						0.00	30.00	30.00

Figure 3

Perform UOM Conversion at Assembly Order

A new option had been added – **“Perform UOM Conversion at Assembly Order”**. User can find this option at **Menu → Tools → Options → Invoicing → Document Control → Perform UOM Conversion at Assembly Order**. By enabling this option, the checking for required stock UOM will be at Assembly Order, thus will perform conversion at this stage if the quantity is insufficient (Refer Figure 4).

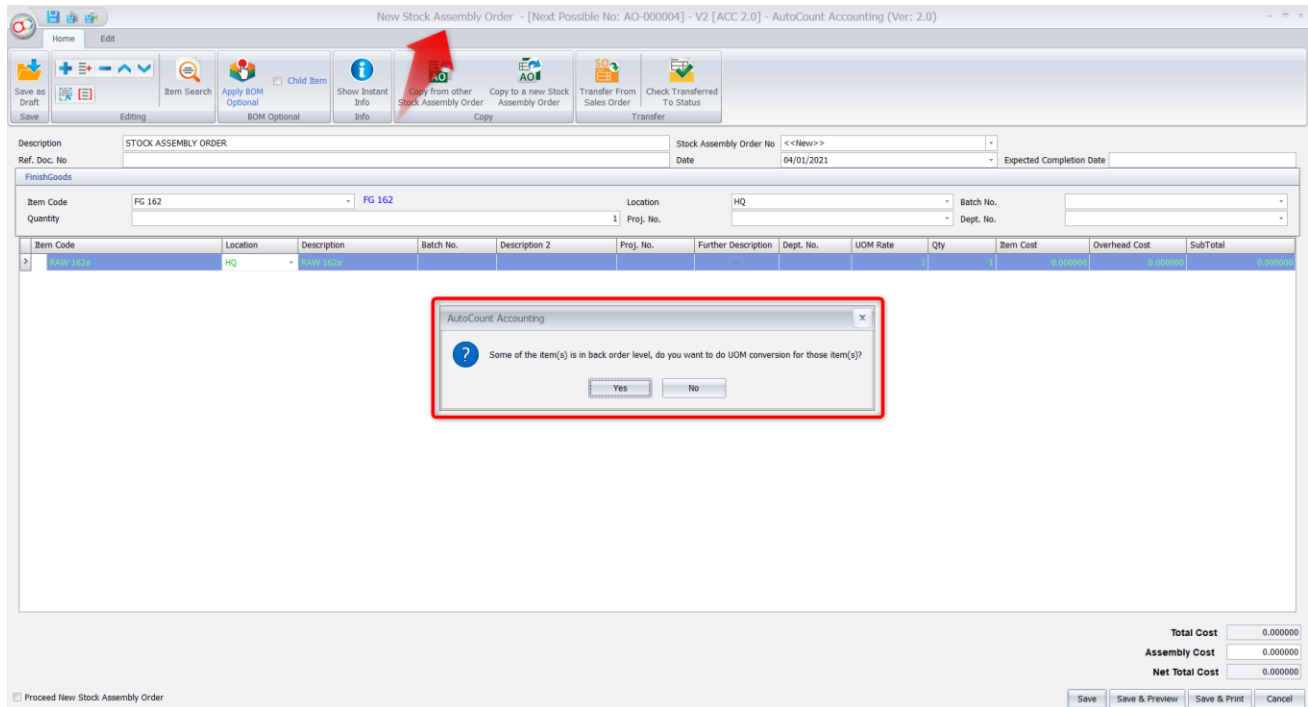

Figure 4

Others

Some other key highlights of this version which does not require further explanation:

1. **Enhance Audit Trail for Item BOM** – User can now check or trace changes at Audit Trail for Item BOM related matters.
2. **Enhance saving speed at Stock Item Maintenance** – Saving speed had been improved. This improvement can only be noticed if you experience slow saving previously when the account book has POS. If your account book does not have POS, you will not notice any improvement.
