

This guide will showcase how can you setup your POS 5.1 Backend to integrate with OneRewards. The minimum required version to perform such integration is through using **POS 5.1.6 Revision 20**.

**\*Enabling this integration will cause feature below to not work as currently not supported:**

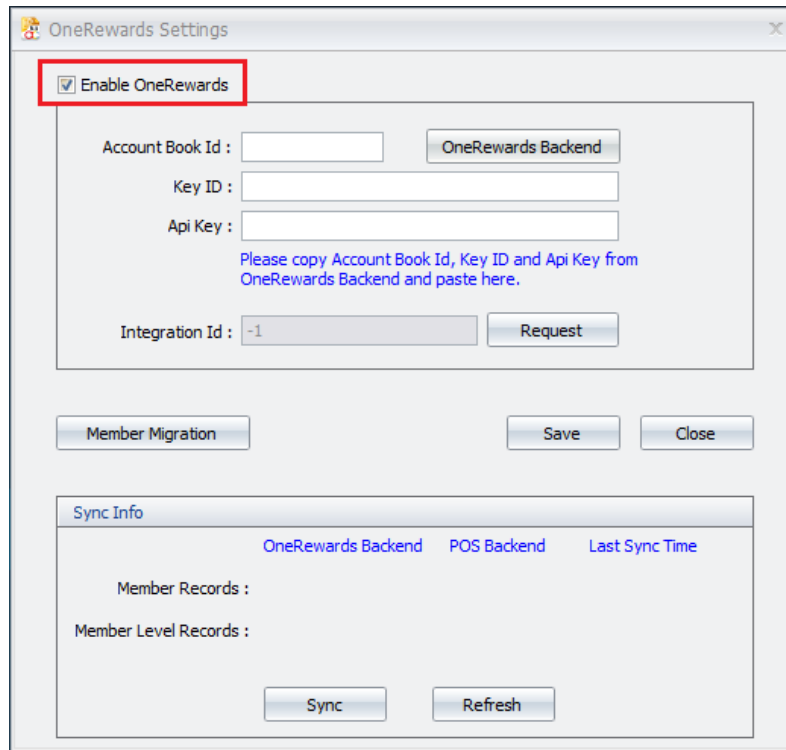

- 1. Member Price.**
- 2. Member Multi-Price.**
- 3. All backend Bonus Point feature (Redemption, Adjustment, Accounting Cash Sales).**
- 4. Point Calculation Option: “Calculate Points based on Item’s Quantity” and “Calculate Points based on Item’s SubTotal”.**

### Setup

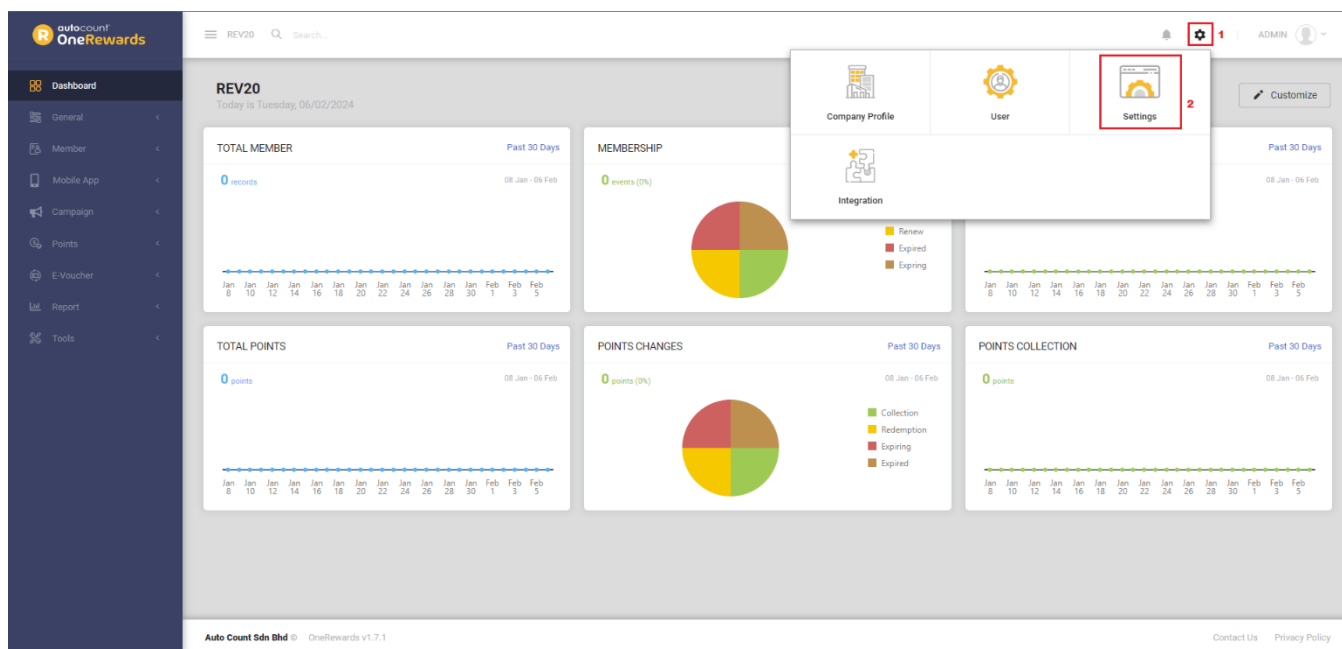

- 1. Login to your POS 5.1 Backend.
- 2. Navigate to Point of **Sales > Settings > OneRewards Settings**.

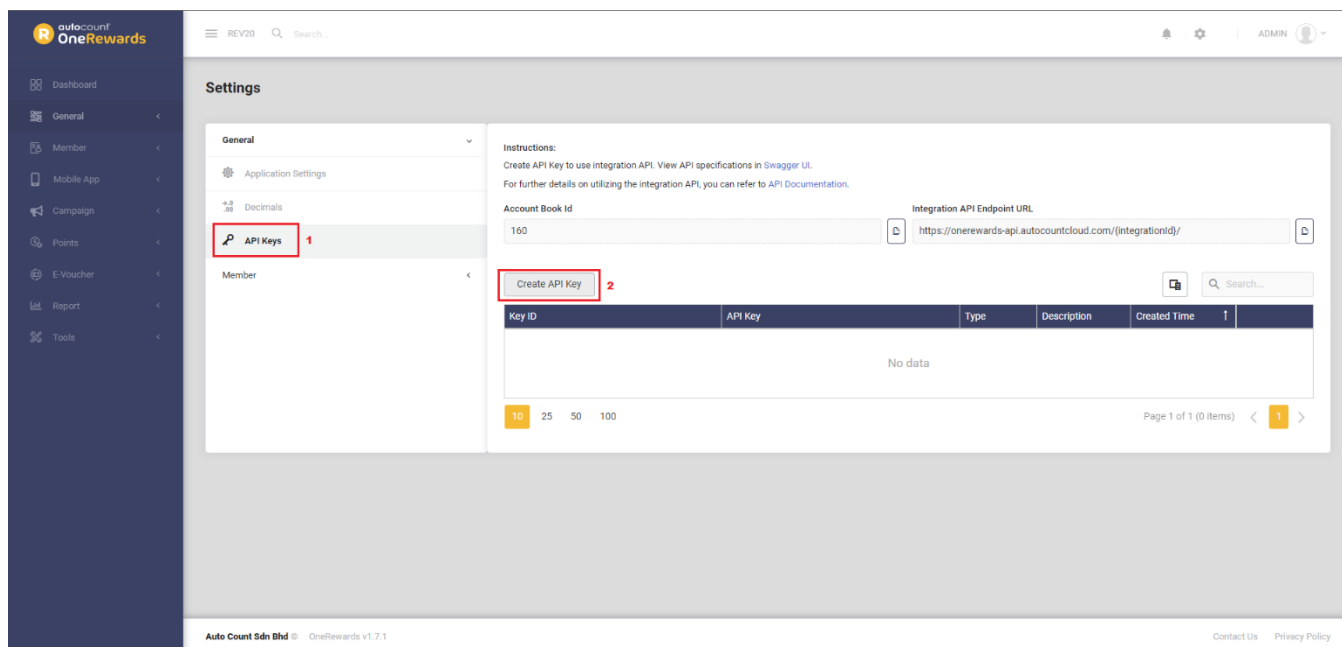

3. Tick on the checkbox “Enable OneRewards”.

4. You will then need to key in several information such as **Account Book ID, Key ID and API Key**. You will need to obtain such information at OneRewards portal.
5. To obtain these information, login to your OneRewards Portal and go to **Setting icon > Settings**.

6. Go to API Keys and click on **“Create API Key”** button to generate your API Key.

7. It will prompt you to choose a type, choose **“POS 5”** type.

### Api Key Credential ✕

Type

POS 5

Cancel
Create

- After you have created your API Key, copy the relevant key into POS 5.1 Backend OneRewards settings. Click on the **“Request”** button to link to OneRewards.

**Instructions:**

Create API Key to use integration API. View API specifications in [Swagger UI](#).

For further details on utilizing the integration API, you can refer to [API Documentation](#).

**Account Book Id**

160 1

**Integration API Endpoint URL**

Enable OneRewards

Account Book Id : **1**

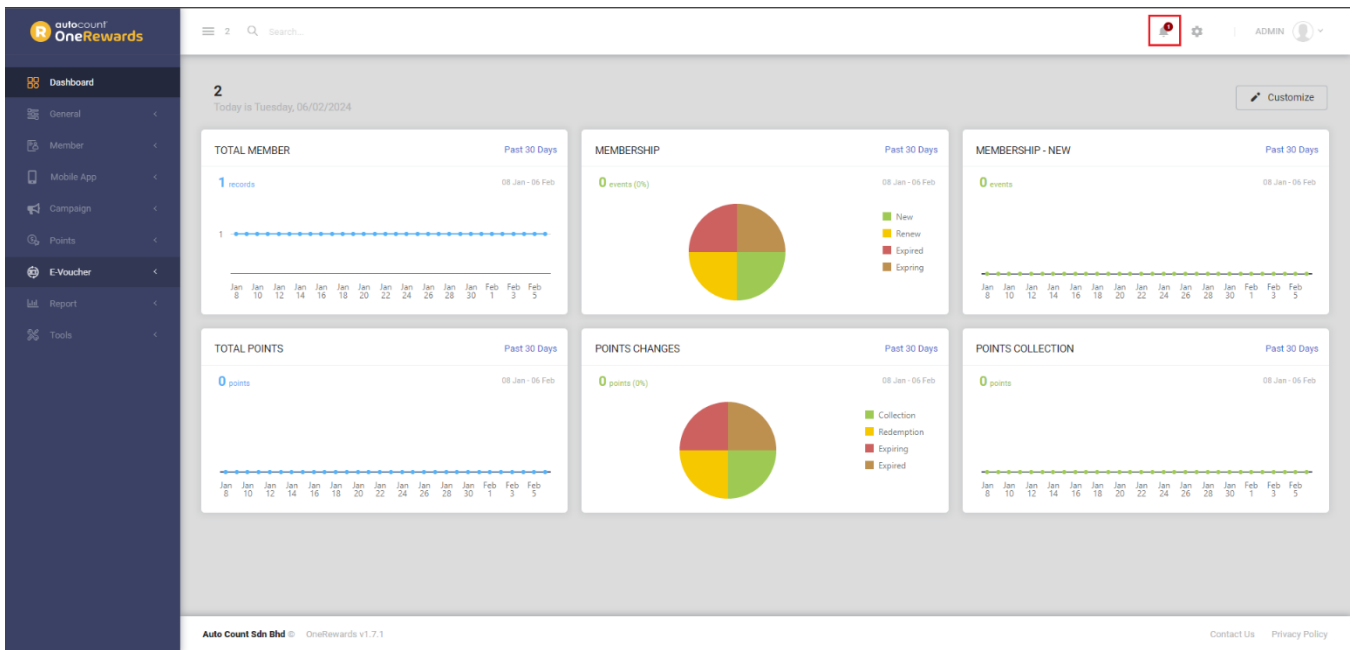

Key ID : **2**

Api Key : **3**

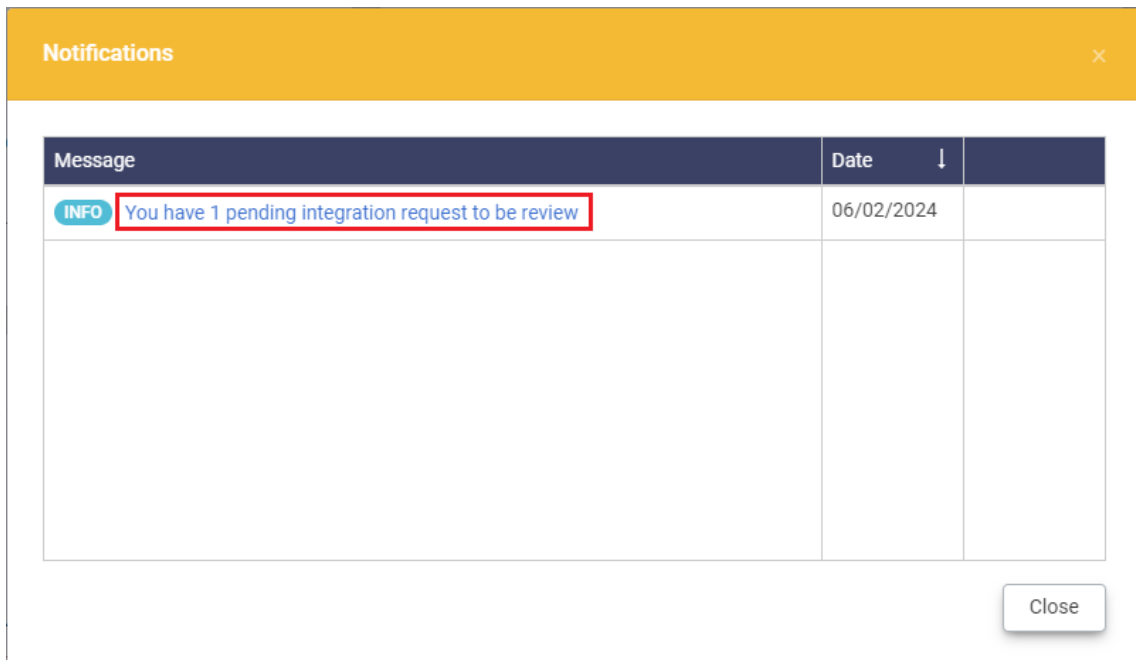

Please copy Account Book Id, Key ID and Api Key from OneRewards Backend and paste here.

Integration Id :   **4**

9. Go to OneRewards Portal, you will notice a notification at your notification icon, click on it.

10. Click on the message.

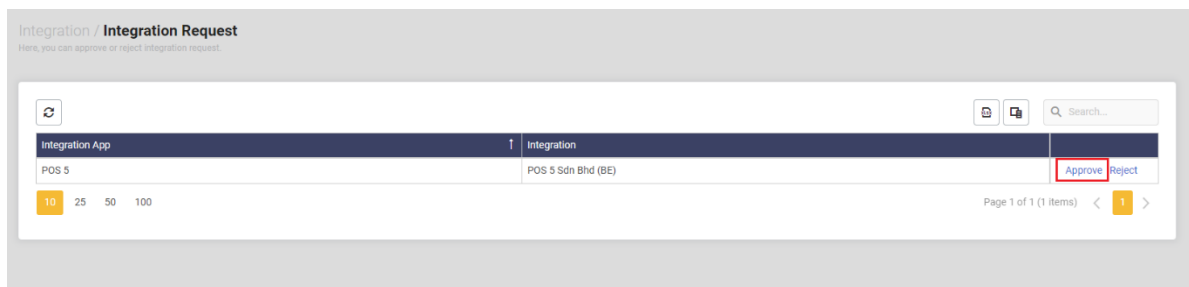

11. Click on the link, it will direct you to the integration request page.

**INFO** You have 1 pending integration request to be review ×

You have 1 pending integration request to be review  
[Click here to open Integration Request page.](#)

Close

12. At the Integration Request page, click on **“Approve”**.

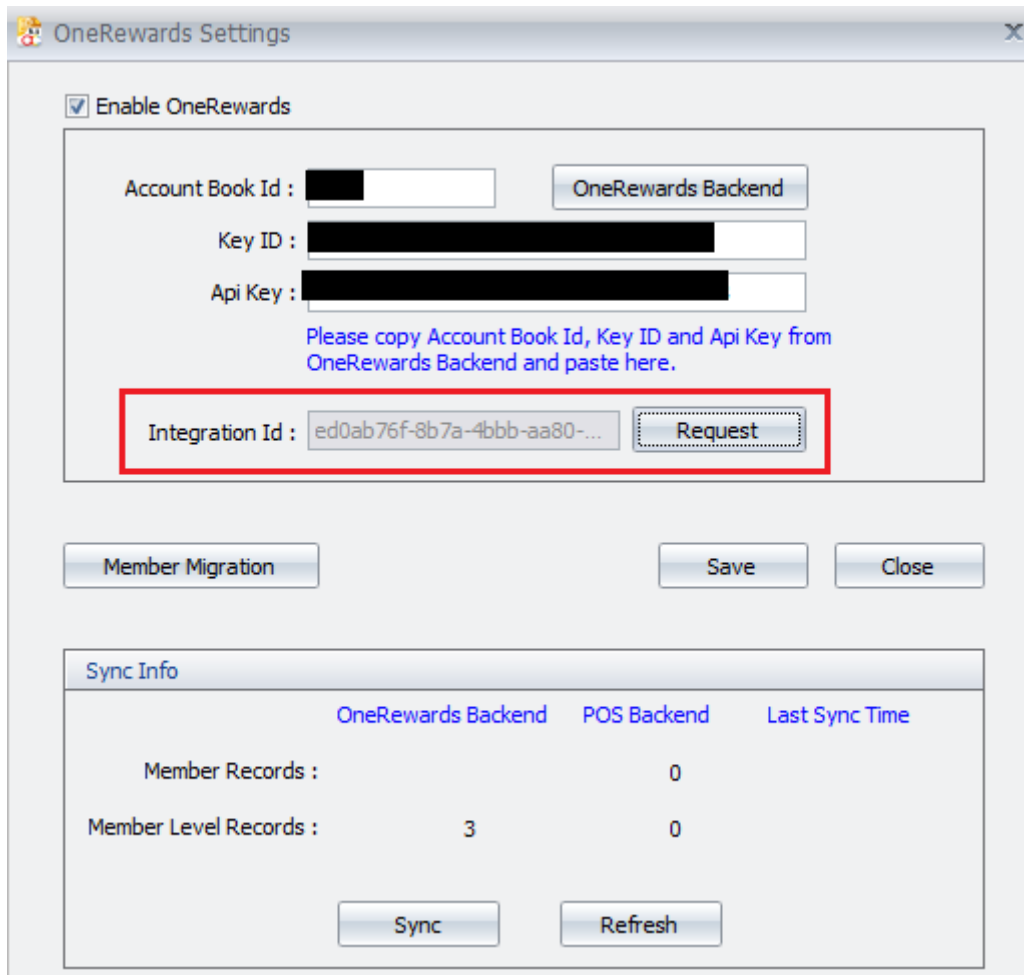

The screenshot shows the 'Integration Request' page. At the top, it says 'Integration / Integration Request' and 'Here, you can approve or reject integration request.' Below this is a table with one row. The table has two columns: 'Integration App' and 'Integration'. The first row contains 'POS 5' and 'POS 5 Sdn Bhd (BE)'. To the right of the second cell, there are two buttons: 'Approve' and 'Reject'. The 'Approve' button is highlighted with a red box. Below the table, there are pagination controls showing 'Page 1 of 1 (1 items)' and a '1' button.

13. A success message will prompt. You have now successfully link your POS 5.1 to OneRewards.

 **Approve request successfully.**

14. You can now go to POS 5.1 Backend’s OneRewards Settings and click on the **“Request”** button again to update the integration ID.

15. You can now click on the “Sync” button to synchronize your members and other information from OneRewards.
