ID: 3761 Split Void and Unvoid access right

“Void / Unvoid Record” access right are now split into 2 individual access rights called “Void Record” and “Unvoid Record”.

The image shows two overlapping screenshots of the 'Edit POS User Group' dialog box for the 'Administrators' user group. The left screenshot, labeled 'Previous Version', shows a single checkbox for 'Void/Unvoid Record' under the 'Functions Access Rights' section. The right screenshot, labeled 'Current Version', shows two separate checkboxes: 'Void Record' and 'Unvoid Record'. A red arrow points from the 'Void/Unvoid Record' checkbox in the previous version to the 'Void Record' checkbox in the current version.
