New Agora City, Agoran Republic

Issue Three

SAVIOR OF OLD AGORA, IGotYOU COMES TO TOWN

By PestilentEdge

Igotyou, in front of New Agora Tower

Igotyou, the proclaimed savior of Old Agora, visited our fair city for the first time today. For those new to our town's history, Igotyou came to the defense of Agora against the Alkaowni Terror Cell, who decimated the former capital. While the city could not be saved, Igotyou was able to assist with the clean up efforts after the attack. In the confusion surrounding the initial moments of the battle, Igotyou was incorrectly accused of being the perpetrator, mostly due to his association with the widely distrusted HCF group. However, it was proven that Igotyou was not to blame for the attack, as he was only trying to help our brave and noble defenders in the battle for Agora. With the settlement of New Agora, a major avenue was named after Igotyou, to honor his assistance in the fight. Igotyou's visit included a meeting with

Chancellor of the Republic agg23, a visit to Igotyou Avenue and a photoshoot in front of the New Agora Tower for the Chronicle. Councillors and citizens alike farewelled the local celebrity, wishing him good luck with his travels and an open invitation to visit New Agora again.

PANTOSTADO1066 FOUNDS
CITY OF SAN MATEO, RUNS
FOR CHANCELLOR POSITION

PanTostado1066 earlier this month

Former Chancellor PanTostado1066 has left the City of New Agora to found the second city in the Agoran Republic, San Mateo. While it is nothing more than a pair of roads and plots at the time of printing, PanTostado's dream is that of a mediterranean style city, complete with villas, a beach and wide, paved roads. It's location is being kept secret save for a select few until the city's official opening, but it remains within the chat range of our fair capital. In a delightful twist, PanTostado1066 has also nominated himself for his former Chancellor position in the February elections. Incumbent Chancellor agg23 has not yet nominated himself for the position, leaving PanTostado unopposed. Concerns regarding the possible relocation of the capital have been quashed, PanTostado assures citizens that New Agora shall remain capital of the republic for the length of his term.

VALENTI OPENS EMBASSY IN NEW AGORA

The Valenti Embassy in New Agora

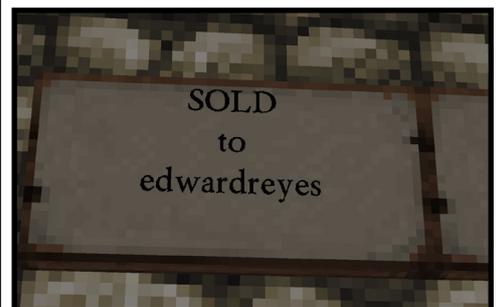

The Valenti Government have decided to build an embassy in the beautiful city of New Agora, located along the north side of University Avenue. The impressive brick and stone structure is reminiscent of the City of Valenti itself. While we were unable to get an interview with the ambassador, we wish them all the luck in fostering better Valenti-Agora relations.

EDWARDREYES123 BEGINS AMBITIOUS NEW PROJECT

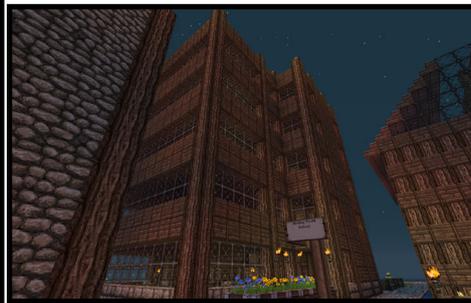

The beginning of Edwardreyes123's newest endeavours

Prominent Agoran local edwardreyes123 has began construction on a secret new project in the centre of town. In a surprising move, Ed purchased the property previously owned by NASU Dean Tambien_Sinclair, and absorbed the abandoned properties previously owned by PestilentEdge (cnr Amazon and Senatorial) and PanTostado1066 (cnr Flatbush and Senatorial). Ed now owns almost 2 whole city blocks, with the exception of the house currently owned by Highbernation. It is unknown whether Ed seeks to purchase this property in order to complete his civil conquest, however, we at the Agora Chronicle look forward to any further developments regarding Ed's plans for the neighborhood.

ANC OPENS NEW OFFICE BUILDING

ANC's new offices on Blending Wizard Pathway

The ANC offices and publishing of the Agora Chronicle have moved out of Highgarden Manor and into the brand new office building located in Agora Docks. The 5 storey building is home to editors, writers, photographers, reporters and actors working for the Agora News Corporation. Work on the television and movie studios located underground still continues, but the majority of the construction is now over. The international newspaper, currently codenamed "SENTINEL" is also being developed within the walls of the building, and progress still continues smoothly.

AGORAN ARENA OPENS WITH FANFARE AND BLOOD

The City of New Agora opened its new spleef arena earlier this week, starting with a round of our national sport, bareknuckle boxing. Local builder and contractor GageRL is the genius behind our city's latest public enterprise, complete with concession stands, redstone wiring and viewing platforms. Multiple rounds of spleef followed the bareknuckle boxing, leading to the formation of an Agoran Spleef League. While we have no competitors yet, League Executives are travelling to major cities to arrange an international cup.

NASU DEAN MURDERED AT GOLEM GRINDER

NASU Dean Tambien_Sinclair was murdered yesterday while staring absently at the local golem grinder. The NAPD has put out an arrest warrant for rdnxl, who is also believed to have broken into multiple houses. Citizens wishing to perform a citizen's arrest are reminded that the criminal is known to disappear as soon as he is spotted.

CONTINUED CHRONICLE DELAYS EXPLAINED

ANC's pilot publication, The Agora Chronicle has been plagued with delays over the previous two days, ANC Chairman PestilentEdge explains, "At the time of printing, there are two of us working here, myself and a photographer. With the new format and use of a new publication software, I have become swamped with an increased workload. I apologise for any inconvenience this may have caused, and only hope that the citizens of New Agora will agree with me that the delays were worth it. Future issues should be completely on schedule, especially once we hire new staff.
