[2018-12-30 16:03:03] <caldera12> Is it explicitly shown, or is it in the middle of an irrelevant sentence?

[2018-12-30 16:03:06] <ARD> It's hidden in the sense that you can't CTRL-F for it or look for the word "PASSCODE" in bold

draft there's a forum for that
[2018-12-30 18:58:47] <aismallard> Since not every SCP will behave the same to
every stimulus (that's why testing logs are a thing)
[2018-12-30 18:58:50] <Pratten> And if it's something about real life science,
there's a forum for that too

[2018-12-30 19:00:02] <aismallard> SCPs, by definition, are things that cannot
exist in reality, as they violate the laws of physics

[2018-12-31 05:43:52] <One> Greetings, i am a human. Just joined the site, i have already written an SCP. Wondered how to put it on the site? Thanks, Merry Christmas and a Happy New Year.
[2018-12-31 05:44:42] <Jazstar> One: Have you gotten critique?
[2018-12-31 05:45:02] <Jazstar> Before you post your scp, it's an excellent idea to head to the critique forum and get some feedback
[2018-12-31 05:45:11] <One> Its pretty heavy. The SCP i wrote, its maybe not 100% fictional.
[2018-12-31 05:45:33] <Pratten> Fictional?
[2018-12-31 05:45:36] <Jazstar> Even more reason for having someone read over it
[2018-12-31 05:45:49] <One> Its about something of a waveform hitting the pentagon. Could be a good thing though.
[2018-12-31 05:46:14] <One> Like a holy inverted SCP.
[2018-12-31 05:47:06] <One> Imagine transitioned bad SCPs into being something else. I believe in holy medicine and stuff to convert the bad.

[2018-12-31 05:47:48] <One> Are any of you guys Christians?
[2018-12-31 05:47:56] <Pratten> Former
[2018-12-31 05:48:03] <One> Thanks for the advice.
[2018-12-31 05:48:03] <Pratten> Why?
[2018-12-31 05:48:29] <One> Miracles could be a cool holy sacred SCP or something.
[2018-12-31 05:48:36] <Jazstar> Some people are atheists, some christians, some muslim, some jewish, etc.
[2018-12-31 05:48:44] <One> I love all people.
[2018-12-31 05:48:49] <Jazstar> Many people of different religious bents on scp
[2018-12-31 05:48:53] <Jazstar> But regardless
[2018-12-31 05:48:59] <Jazstar> Please get feedback before posting

[2019-01-01 10:59:09] <ProfSnider> ah, I see

[2019-01-01 11:05:46] <ProfSnider> not a major one; I mostly want to clean it up a bit, make the text a bit more clinical

[2019-01-01 11:06:37] <ProfSnider> I've thought about coming up with an origin for 999, but never came up with one that felt satisfactory

I don't know what to believe or if I should continue reading this site

 [2019-01-01 22:13:41] <Pratten> Yeah, that was it

[2019-01-01 22:14:14] <Pratten> It was because I have a tale series going on, and I'm getting more and more wildly different titles for each one.

[2019-01-01 22:14:26] <Pratten> And it's getting hard to track unless you can figure out the first one's title.

[2019-01-01 22:15:29] <Lazar> Just do linking at the bottom

[2019-01-01 22:15:47] <Lazar> tags for tale series is something that happened a long time ago, and they're basically grandfathered in

[2019-01-01 22:15:53] <Lazar> they're supposed to get cleaned up eventually.

[2019-01-02 10:51:17] <HigherGround> Huh. Actually I do have login issues. I can
only log in when using the wikidot version of the site.
[2019-01-02 10:51:31] <Sax> Wikidot version?
[2019-01-02 10:51:34] <Sax> There's another version?
[2019-01-02 10:51:46] <HigherGround> My attempts to log in from the other address
of the site, or even to register a new account, don't register and the confirmation

[2019-01-02 10:52:02] <Sax> Are you using a hotmail account?

[2019-01-02 10:52:23] <Sax> Interesting.
[2019-01-02 10:52:39] <HigherGround> I was told other people had login problems and to just use the wikidot version rather than scp-wiki.net
[2019-01-02 10:52:44] <HigherGround> That worked
[2019-01-02 10:52:54] <Sax> It's one of those caveats because of wikidot.

[2019-01-02 22:36:31] <SnowSoft> So I got declined in my request to join the site, can I try again or am I permanently banned now?
[2019-01-02 22:37:02] <Pratten> You can try again, was there a reason stated when you got rejected?
[2019-01-02 22:37:56] <SnowSoft> No reason given that I can see. I tried to reply but it said "You can not apply. It seems you have already applied for membership."
[2019-01-02 22:38:19] <Pratten> Ahh, you have an application that has already been sent
[2019-01-02 22:38:19] <ARD> Ah, I know the problem
[2019-01-02 22:38:30] <ARD> What Pratten said
[2019-01-02 22:38:34] <ARD> Here's how to fix it, SnowSoft
[2019-01-02 22:38:53] <ARD> Go to My Account -> Messages -> Applications
[2019-01-02 22:39:12] <ARD> You should then see your SCP Wiki app. Clicking it will give you the option to delete it. Do that.
[2019-01-02 22:39:30] <ARD> Now that your app has been deleted, you should be free to submit a new one
[2019-01-02 22:41:01] <SnowSoft> This is some next level bot detection security.

[2019-01-03 02:06:27] <Taffeta> It's called a password for a reason, you don't login to your computer by starting with 'dear sir/madam'
[2019-01-03 02:06:54] <Guest28673> Well, No

[2019-01-03 11:57:36] <Quikngruvn> Easiest way is to check the edit history.

[2019-01-03 11:57:49] <Quikngruvn> Whoever created Revision 0 on an article is usually the author.

[2019-01-03 11:58:04] <Tufto> brumbo: click on the "history" button at the bottom, and go to the earliest entry; that'll be the article's creation. if it's a deleted account, try checking the comments, or the infobox next to the ratings module (if it has one, it's a new thing).

[2019-01-03 11:58:09] <Quikngruvn> Alternately, the chat-bot may be able to tell

you.

[2019-01-03 17:30:33] <Quikngruvn> The process for getting connected to #site19 is in there.
[2019-01-03 17:31:13] <dark4ce1> thanks, I've read through it and followed the steps but when i try to do the " /msg NickServ IDENTIFY password. " command nothing happens
[2019-01-03 17:31:57] <Quikngruvn> Your nick isn't registered. You can't identify till you're registered.
[2019-01-03 17:33:07] <dark4ce1> I have registered my nickname, did it yesterday. When on mobile it works but on web browser there is no response when I use the command

[2019-01-03 17:34:10] <dark4ce1> my nick is actually dark4ce, I am using this one since i have the chat open in another window
[2019-01-03 17:34:48] <Tuomey> okay well are you making sure to do the identify command at the start of a line with nothing before the /
[2019-01-03 17:35:40] <Tuomey> and after that do /join #site19

[2019-01-03 22:10:58] <Tuomey> and it can take a while for admins to get to apps as they all have to be done manually

[2019-01-03 22:11:06] <Tuomey> in the meantime you can still use the sandbox and chatrooms

[2019-01-03 22:11:47] <Tuomey> if you intend on writing here, using the sandbox is a good place to start and the chatrooms - specifically #thecritters and #site19 - allow you to get feedback from other members

[2019-01-04 16:41:20] <trets> So lots of stuff has been expanded.

[2019-01-04 16:42:44] – trets shrugs
[2019-01-04 16:42:48] <trets> There is no canon.
[2019-01-04 16:42:56] <Quikngruvn> We have articles that directly contradict each other.
[2019-01-04 16:43:16] <Quikngruvn> Each reader decides what is true in-universe, and what isn't.

[2019-01-05 12:06:20] <WrongJohnSilver> But it exists on the wiki.

[2019-01-05 12:09:33] <WrongJohnSilver> You should be able to do that by deleting the present -J, then editing SCP-P373R. However, to be honest, this one will be deleted soon to (this evening, most likely), so your best option is to go back to the drawing board, find a way to make your article better, and repost once it won't sink into the negatives.

[2019-01-07 12:34:59] <DoctorXavier> sorry
[2019-01-07 12:35:04] <Quikngruvn> You'll want either #thecritters or #site19 (the latter requires registration).
[2019-01-07 12:35:04] <DoctorXavier> I am just a bit new here

[2019-01-07 12:35:25] <DoctorXavier> I literally joined 1 day ago, and I'm already accidentally spamming in stuff
[2019-01-07 12:35:34] <Sudddey> Hi Quik, could I ask a quick formatting question?
[2019-01-07 12:36:01] <Quikngruvn> Go for it, Sudd.
[2019-01-07 12:36:04] <Sudddey> I've looked through the guides and can't find an answer to my question
[2019-01-07 12:36:06] <Sudddey> cheers
[2019-01-07 12:37:45] <Sudddey> So I'm currently writing a skip that includes a reader-driven narrative which is basically a choice system that will update logs. In order to do this, I need to create other pages that can be linked to via the main skip page. My question is: how do I make these pages, and is there a limit to how many I can make?
[2019-01-07 12:38:21] <Lazar> You'll use the offset system, which is unfortunately something I'm not that familiar with
[2019-01-07 12:38:28] <Lazar> but there's a couple that do that
[2019-01-07 12:38:52] <Sudddey> where might I find that?
[2019-01-07 12:39:10] <Lazar> Currently trying to find the wikidot documentation
[2019-01-07 12:39:12] <Lazar> without success
[2019-01-07 12:39:24] <Sudddey> I appreciate your help.
[2019-01-07 12:39:29] <Quikngruvn> I don't know off the top of my head.

[2019-01-07 12:40:37] <Lazar> here's a page that uses a lot of offsets
[2019-01-07 12:41:04] <Sudddey> Thanks
[2019-01-07 12:41:55] <Lazar> Definitely use offsets, or otherwise you'll clog up

most recently created and everyone will be sad.

[2019-01-07 12:42:49] <Sudddey> Yeah that's what I was thinking

[2019-01-07 12:43:06] <Sudddey> I just don't know how to create an offset page?

[2019-01-07 12:43:31] <Lazar> You #might# just enter that URL and create the new page

[2019-01-07 12:43:47] <Lazar> but someone better versed in wikidot screwiness will have the actual answer

[2019-01-07 12:44:03] <Lazar> Also make sure you get critique before posting anything to mainsite, use the sandbox

[2019-01-07 12:44:05] <Lazar> ?sandbox

[2019-01-07 12:44:10] <Lazar> ...

[2019-01-08 11:38:57] <unclenicolini> So I dont really have an issue, i just want to make sure if what im doing is kosher with tech team.

[2019-01-08 11:40:08] <unclenicolini> Im using it for an in-universe document. I just want to make sure tech team wont kill me for using it, since i know they dont like site nav being messed with
[2019-01-08 11:40:49] <unclenicolini> For the record: it doesnt actually function as a tag system. I bring this up because its got a few non-tags on it.
[2019-01-08 11:41:21] <Rimple> I think the big issue is whether it'll fuck with the bots
[2019-01-08 11:41:30] <AbsentmindedNihilist> hmmm
[2019-01-08 11:41:41] <Rimple> The page will need to have actual tags on it as well

[2019-01-08 11:42:16] <Rimple> If you wanna hide those and make it appear to have fakeout ones, that /should/ be fine
[2019-01-08 11:42:43] <unclenicolini> I know the japanese wiki has an article with this same div on it and as far as i know it hasnt caused any problems for them.
[2019-01-08 11:43:27] <Rimple> I don't know that the Japanese wiki has bots that rely on consistent tagging

I recall another author page that did something similar, even adding a fake `tagged-correctly` tag.

[2019-01-08 11:56:02] <Rimple> unclenicolini: if this is something time-sensitive (for cliché-con or w/e), go for it and I'll take the responsibility if Magnus is annoyed

[2019-01-09 09:59:55] <Talian> I saw it editing seemed like a good start.
[2019-01-09 10:00:57] <bluesoul> <http://www.scp-wiki.net/guide-hub> has explanations of a lot of long-standing pieces meant to help get started as well

[2019-01-09 10:02:53] <Talian> It seemed pretty strict about no roleplay. Is there any specific reason for that?
[2019-01-09 10:04:28] <bluesoul> it tends towards being highly unconstructive
[2019-01-09 10:04:39] <bluesoul> and the main point of the site proper is the writing and improving at it
[2019-01-09 10:04:46] <bluesoul> this is not compatible with doing roleplay at the same time

[2019-01-09 10:04:57] <bluesoul> so, roleplay happens in other places
[2019-01-09 10:05:42] <Talian> Right, thanks.

[2019-01-09 22:24:19] <QuidProQuo> That must be where I messed up, but I thought
the application was in itself an acknowledgement of age. My apologies.

[2019-01-10 06:08:59] <BoogeyMan23> HelloIAM: hi there. what seems to be the trouble?

[2019-01-10 06:09:32] <HelloIAM> I saw on the Guide for newbies there is a Site Pascode, but i can't find it

[2019-01-10 06:09:46] <HelloIAM> On the join page

[2019-01-10 06:10:17] <HelloIAM> They said 'In the Guide for Newbies you will find the site pascode'

[2019-01-10 06:10:53] <BoogeyMan23> yes, to be a member of the wiki you must include the passcode in your application. the passcode is found by reading the Guide for Newbies

[2019-01-10 06:11:10] <HelloIAM> I know but i cant find it

[2019-01-10 06:13:24] <BoogeyMan23> mmm... it is indeed there. all I can really do

is to suggest you read the page again. all parts of it, slow and carefully - even read it out loud if it helps.

[2019-01-10 06:58:53] <TheHighTieGuy> and update the page, do you then replace the link in the actual post

[2019-01-14 14:08:38] <DrSovak> so, nostalgia and problems?

[2019-01-14 14:10:47] <DrSovak> Several SCPs would be handy now

[2019-01-14 14:22:37] <CorvusCaurinus> Quite frankly I'm just going to push again for us to delete it

[2019-01-14 14:22:48] <Tuomey> licensing staff will literally never have zero priorities

[2019-01-14 14:23:23] <CorvusCaurinus> Because it is a responsibility //in perpetuity// that I am neither able nor willing to give to my team unless it triples in size which will never happen.

[2019-01-14 14:23:36] <CorvusCaurinus> So no, the theory isn't accurate.

[2019-01-14 14:23:47] <CorvusCaurinus> Why the hell do you care so much?

[2019-01-14 14:23:52] <DrSovak> uhh

[2019-01-14 14:23:58] <DrSovak> there's a picture I want

[2019-01-14 14:24:28] <CorvusCaurinus> Yes, we've already dealt with that question though.

[2019-01-14 14:24:40] <DrSovak> I know

[2019-01-14 14:25:14] <CorvusCaurinus> Do you have any other questions?

[2019-01-14 14:25:37] <DrSovak> if I want the picture I should ask the author?

[2019-01-14 14:26:50] <CorvusCaurinus> Author? You mean the photographer?

[2019-01-14 14:27:08] <DrSovak> yes..

[2019-01-14 14:28:25] <DrSovak> I mean, the link provided goes to an account that says "

[2019-01-14 14:30:22] <CorvusCaurinus> Paste the link in here?

[2019-01-15 09:54:45] <Tufto> hey- regarding the disc procedures of

"Doombringer106" on 05, it might be worth noting that, according to scpper, they downvoted 90 SCPs without any upvotes all on the 15th (today). given that scpper only updates at 1am GMT, but seems (for me at any rate) to record the date by GMT, this implies he did all of that in the space of 1 hour, a pretty clear case of

[2019-01-15 10:51:37] <Trentv4> Just making sure - tales for the Resurrection canon are still accepted?

[2019-01-15 10:52:08] <Trentv4> With permission from a few other writers

[2019-01-15 10:54:11] <bluesoul> i'm not sure honestly

[2019-01-15 10:54:22] <bluesoul> hasn't been much action on it since 2017

[2019-01-15 10:54:40] <Trentv4> That's why I'm a little concerned

[2019-01-15 10:54:52] <Trentv4> I have a draft in progress for a tale and for a mainlist article

[2019-01-15 10:55:46] <stormfallen> I mean, isn't the point of canons that anyone can write for them, without permission? I know there's vague plans for continuing the main storyline but Moose has been absurdly busy with real life

[2019-01-15 10:57:11] <Trentv4> The FAQ on the Resurrection page asks that several established writers approve before adding it

[2019-01-15 10:57:25] <Trentv4> and considering who the established writers are that seems like a good idea to follow

[2019-01-15 10:58:58] <bluesoul> stormfallen yes, but my reservations were more to do with trying to get a hold of moose and seeing what they think about the pitch

[2019-01-15 10:59:16] <bluesoul> .user thedeadlymoose

[2019-01-15 10:59:16] <stormfallen> Fair

[2019-01-15 10:59:16] <Secretary_Helen> bluesoul: <http://www.wikidot.com/user:info/thedeadlymoose>

[2019-01-15 10:59:37] <bluesoul> Trentv4 if you click that link you can send moose a message, and i can also let them know to look for one

[2019-01-15 10:59:53] <bluesoul> stormfallen is correct, you should be able to contribute, but i've personally never done it for one with so long in between updates

[2019-01-15 11:04:52] <Trentv4> That's kind of a shame. It's my favorite one so far
 [2019-01-15 11:05:40] <Trentv4> I'll get the drafts to an acceptable level before asking around or finishing them, then

 [2019-01-15 19:55:56] <bluesoul> so, question
 [2019-01-15 19:56:06] <bluesoul> is your concern that it's listed under minor GOIs somewhere?
 [2019-01-15 19:56:25] <unclenicolini> dropping by to fondly regard wws, as it pings me.
 [2019-01-15 19:56:39] <DarkStuff> bluesoul: It is listed under Minor GOIs on this page:
 [2019-01-15 19:56:42] <DarkStuff> <http://05command.wikidot.com/tag-guide>
 [2019-01-15 19:56:46] <DarkStuff> It honestly isn't a big deal
 [2019-01-15 19:56:55] <DarkStuff> (Even though I would like to hope that WWS is a "major GoI" :3)
 [2019-01-15 19:56:56] <bluesoul> well you're right about that

[2019-01-15 19:56:57] <bluesoul> lol
[2019-01-15 19:57:07] <DarkStuff> I'm just wondering...
[2019-01-15 19:57:09] <DarkStuff> Why that distinction exists?
[2019-01-15 19:57:11] <DarkStuff> And what decides
[2019-01-15 19:57:25] <bluesoul> the distinction is whether or not it qualifies for a goi hub i believe
[2019-01-15 19:57:30] <bluesoul> much like an author page
[2019-01-15 19:57:42] <DarkStuff> Well, ANY tag requires 5 pages by 3 authors
[2019-01-15 19:57:47] <DarkStuff> Which qualifies it for a hub
[2019-01-15 19:57:48] <Decibelle> i also believe that initially, the distinction was only just for whether a newer goi had the same clout as the ones that stuck around forever?
[2019-01-15 19:57:58] <Decibelle> because back then there were a lot less gois
[2019-01-15 19:58:15] <Decibelle> a few major ones and a lot of smaller ones people didnt write much about; hence such a distinction being made
[2019-01-15 19:58:53] <DarkStuff> Right
[2019-01-15 19:59:03] <DarkStuff> However, not many people write Children of the Torch (7 pages)
[2019-01-15 19:59:14] <DarkStuff> And many people write Wilson's Wildlife (39)
[2019-01-15 19:59:21] <bluesoul> yeah, it was probably just an oversight
[2019-01-15 19:59:42] <bluesoul> a handful of people in tech are the only ones that continuously reference that guide and the distinction from their POV is nil
[2019-01-15 20:00:01] <Decibelle> probably also that WWS never got moved once it was added to the tag guide, which it may have been when WWS was just starting out
[2019-01-15 20:00:12] <DarkStuff> That is very very likely
[2019-01-15 20:00:44] <DarkStuff> Is there a tech guy I can talk to about updating the tag guide? I also notice many, many missing tags
[2019-01-15 20:01:05] <bluesoul> Accelerando is going to be the best person for that

[2019-01-15 20:01:23] <DarkStuff> Okay

[2019-01-16 07:22:49] <djraktus> I'm told that this might violate some policy.

[2019-01-16 07:23:02] <djraktus> I really hope it doesn't, because that would be sort of silly.

[2019-01-16 07:23:10] <djraktus> But I need to ask.

[2019-01-16 07:23:53] <ChaoSera> Our general policy is that custom CSS styles can't hide or remove elements of the site navigation

[2019-01-16 07:24:02] <ChaoSera> So I'm afraid you can't hide the search bar

[2019-01-16 07:24:28] <djraktus> That's remarkably disappointing.

[2019-01-16 07:24:35] <djraktus> What if I put it somewhere else

[2019-01-16 07:24:38] <djraktus> Like in the sidebar.

[2019-01-16 07:25:30] <ChaoSera> I dunno, maybe. I'd have to see the actual implementation

[2019-01-16 07:25:41] <ChaoSera> But I'd prefer if you left it as is

[2019-01-16 07:25:59] <djraktus> I assume this would also apply to the translation box in the sidebar?

[2019-01-16 07:26:06] <djraktus> because all sorts of themes currently hide that.

[2019-01-16 07:26:16] <djraktus> specifically Greenwolf's third law theme

[2019-01-16 07:29:18] <Lily> i'm pretty sure that was brought up and he was told "no" but i'm not tech

[2019-01-16 07:29:23] <Lily> Anyway it shouldn't be hidden imo

[2019-01-16 07:29:29] <djraktus> Ah

[2019-01-16 07:29:42] <ChaoSera> There was definitely a discussion on that but off the top of my hat I don't remember the decision tbh

[2019-01-16 07:29:51] <djraktus> May be worth having that conversation again, then, because it is currently hidden.

[2019-01-16 07:29:56] <djraktus> Being unable to customize that box is uh

[2019-01-16 07:29:58] <djraktus> problematic

[2019-01-16 07:30:10] <djraktus> which is probably why he hid it.

[2019-01-16 07:30:14] <ChaoSera> It is. But it's hosted offsite by the russian branch

[2019-01-16 07:30:24] <djraktus> aye

[2019-01-16 07:30:32] <djraktus> Alright, well

[2019-01-16 07:31:24] <djraktus> I'll be straight up, and I know you probably don't care much either way, but I think this policy is short sighted.

[2019-01-16 07:31:32] <djraktus> Removing the banner links to other scps and tales and pages, I get

[2019-01-16 07:31:36] <djraktus> totally down for that.

[2019-01-16 07:31:43] <djraktus> But the search bar is a buggy piece of shit.

[2019-01-16 07:31:49] <djraktus> I'll find a way to make it work, I guess.

[2019-01-16 07:31:56] <djraktus> Thanks for the help.

[2019-01-16 07:32:33] <ChaoSera> While we're at it, I know you're aware of this but if you want to have this style on the mainsite you really need to fix its issues on mobile

[2019-01-16 07:33:19] <djraktus> Yeah that probably doesn't need to be said. I'm not going to be happy with it until it's fixed on mobile.

[2019-01-16 08:51:09] <djKaktus> but I don't mean this to be rude or anything, but that's far from what I think staff would consider the basis for a policy to be

[2019-01-16 08:51:42] <djKaktus> in fact, if you had to ask me I'd say the general consensus was overwhelmingly negative pre-updates, and then nearly no conversation at all post-updates.
[2019-01-16 08:52:10] <taylor_i0Stkin> However the consensus on CSS at the moment seems to be 'don't fuck with basic site functions but you can change how things look'
[2019-01-16 08:52:14] <djKaktus> I'd like to talk to the tech team captain before you rush to a vote

can say that will convince us to let you hide the search bar. But we can definitely have a discussion about that

[2019-01-16 08:54:36] <ChaoSera> Just not when I'm at work

[2019-01-16 08:56:46] <djKaktus> I don't mean to disturb, obviously. If you have work to do then do the work. My argument would just be that maintaining the search bar seems silly when it barely works 9/10 times and takes up as much space as it does in the header. It's easy to say "it's not your call to make" and you're right, I'm not on tech team, but anecdotally I can't say that I've encountered anyone who has ever had anything positive to say about it.

[2019-01-16 08:57:39] <djKaktus> I mean, even the tech team captain had this to say during that conversation:

[2019-01-16 08:57:46] <djKaktus> "they must not be malicious in their implementations and they must not deceive users with regards to the operation of the site."

[2019-01-16 08:58:04] <djKaktus> There's nothing malicious about this at all. I removed it because I don't trust its functionality, and believe it does more harm than good.

[2019-01-16 08:58:35] <djKaktus> I think it would be better served under a collapsible somewhere or on the sidebar at the very bottom down where it can't mislead people into thinking it's better than a google search

[2019-01-16 08:59:19] <djKaktus> More than that, I don't see the need to draw the line in the sand here. I'm not looking to change anything dramatic about the functionality of the site - I don't even have a problem with the translation box, ugly though it might be. Those are all fine and I see no reason to change those

[2019-01-16 08:59:27] <djKaktus> I don't intend to disrupt the way users navigate around the site

[2019-01-16 08:59:37] <djKaktus> because I don't believe users actually use the search bar to navigate

[2019-01-16 08:59:39] <ChaoSera> I know your intent isn't malicious. But even with its functionality being.. let's call it questionable, it's an integral part of site navigation that's not useless and most likely frequently used

[2019-01-16 08:59:40] <djKaktus> at least, not on my pages

[2019-01-16 08:59:47] <ChaoSera> I disagree on that

[2019-01-16 08:59:52] <ChaoSera> I have personally used it in the past

[2019-01-16 08:59:54] <AbsentmindedNihilist> i can testify to using it frequently

[2019-01-16 09:00:33] <ChaoSera> Beyond that, the presence of a search bar is definitely a core expectation a user has from any wiki

[2019-01-16 09:01:02] <djKaktus> Maybe one that isn't so obtrusive like, say, one integrated into the top bar

[2019-01-16 09:01:27] <ChaoSera> Is it that obtrusive? I barely ever notice it tbh

[2019-01-16 09:01:36] <djKaktus> All I'm saying is, if this were something that would be integrated into the global site theme I'd get it

[2019-01-16 09:01:47] <djKaktus> you want users coming to the site to be able to use the search bar

[2019-01-16 09:01:52] <djKaktus> I'm not arguing for removing it entirely

[2019-01-16 09:02:05] <djKaktus> I'm just asking to remove it on a css that I intend to use specifically for my own pages.

[2019-01-16 09:02:19] <ChaoSera> I get that

[2019-01-16 09:02:26] <djKaktus> because I think it is aesthetically and functionally lacking.

[2019-01-16 09:02:41] <ChaoSera> But it's important that the site behaves identically, no matter which specific page you're on

[2019-01-16 09:03:26] <ChaoSera> A global navigation element can't just not be present for no reason on a couple of select subpages

[2019-01-16 16:05:05] <Tuomey> hi
[2019-01-16 16:05:09] <Foresster> hello
[2019-01-16 16:05:10] <Tuomey> do you have a question for staff

[2019-01-16 16:08:18] <JefHamish> hello i applied to become a member of scp 2 ish days ago and i have just got an alert saying im declined but idk what iv done wrong i did the whole hidden passphrase thing in the guide and i cant try to apply again ?
[2019-01-16 16:08:49] <Tuomey> JefHamish: if you tell me your wikidot username and show me exactly what you put in your app I can probably tell you why you were declined
[2019-01-16 16:08:58] <Tuomey> also, to apply again, you just gotta delete your old app

[2019-01-16 16:10:16] <JefHamish> username is "Jef Hamish" and what i put in the app was "I will follow the required reading, and respect other members of the SCP Foundation wiki."

[2019-01-16 16:11:07] <Foresster> uhhh, Tuo? My question is quite simple, i just wanna know that when i recieve the notification if im accepted or not, where will i recieve it? My email, wikidot account or something else?

[2019-01-16 16:11:12] <Foresster> else*

[2019-01-16 16:11:36] <Tuomey> JefHamish: I have no idea why you were denied - probably just an admin misclicked. Delete your app and resend it.

[2019-01-16 16:11:59] <Foresster> good luck Jef

[2019-01-16 16:12:03] <Tuomey> Foresster: in your wikidot account but sometimes it doesn't send so just keep an eye on the app - it'll say "accepted" if/when it gets accepted

[2019-01-16 23:09:12] <SmithCoven> 10/10 would apply again

[2019-01-16 23:10:50] <SmithCoven> by the way, is it an automated system, or does an admin read the application. Because if it is automated, I don't want to be rejected because of a typo or mis-capitalization.

[2019-01-16 23:11:46] <ARD> Admins read it

[2019-01-16 23:12:18] <SmithCoven> Thank goodness, I was getting worried about whether or not the italics in the guide were required

[2019-01-16 23:12:21] <ARD> SmithCoven: you've got to admit, the passcode is highly effective at ensuring people don't skim

[2019-01-16 23:13:55] <SmithCoven> It definitely does do that

[2019-01-16 23:16:08] <SmithCoven> I used to really love this site for the beautifully created content, the constant curating, and the theme of it all.

I type my username. is this a problem on my end?
[2019-01-17 05:34:12] <Pratten> Mibbit banned your ip from the looks of it

[2019-01-17 05:36:49] <Tufto_> why?

 [2019-01-18 09:41:33] <rounderhouse> I've also got a question, if y'all are
 finished.
 [2019-01-18 09:42:00] <rounderhouse> Are we obligated to announce self-deletions in
 the forum thread?
 [2019-01-18 09:42:10] <Quikngruvn> Obligated to? No.
 [2019-01-18 09:42:12] <bluesoul> not obligated, no

[2019-01-18 09:42:34] <rounderhouse> Is it preferred that we do?
[2019-01-18 09:42:56] <rounderhouse> Or is it w/e?
[2019-01-18 09:42:56] <bluesoul> i have no strong preference, if you've got what you need from the discussion threads
[2019-01-18 09:43:12] <bluesoul> it's nice as far as, "hey, where'd that article go? oh, it's in deletions 56"
[2019-01-18 09:43:22] <rounderhouse> mhm
[2019-01-18 09:43:33] <rounderhouse> I've already ported over feedback into a sandbox.
[2019-01-18 09:43:37] <Quikngruvn> rounder, I always have when I've self-deleted.
[2019-01-18 09:43:37] <bluesoul> but i also get not making a big deal out of it
[2019-01-18 09:43:50] <bluesoul> and i don't think i've ever announced a self-delete
[2019-01-18 09:43:56] - bluesoul shrug
[2019-01-18 09:44:03] <Quikngruvn> If you post "I self-deleted", you certainly don't need to port over criticism or whatever.
[2019-01-18 09:44:04] <bluesoul> your answer is decidedly "do whatever the fuck you want"
[2019-01-18 09:44:24] <rounderhouse> Aight.

[2019-01-18 18:10:40] <Spyroaddict> hi
[2019-01-18 18:10:53] <Quikngruvn> Hello.
[2019-01-18 18:11:08] <Spyroaddict> can i speak to a staff member if there is one?
[2019-01-18 18:11:21] <bluesoul> that is currently what you are doing
[2019-01-18 18:11:30] <Spyroaddict> Oh Oof
[2019-01-18 18:11:40] <Spyroaddict> well here is my question
[2019-01-18 18:12:22] <Spyroaddict> So i applied for staff awhile back like a day ago and i get it can take a few days but what are the chances of actually getting in
[2019-01-18 18:12:37] <Quikngruvn> Applied for staff?
[2019-01-18 18:12:39] <bluesoul> applied to join the site?
[2019-01-18 18:12:45] <Spyroaddict> Yes
[2019-01-18 18:12:52] <Quikngruvn> Yes to which?
[2019-01-18 18:12:53] <bluesoul> take it away, Quikngruvn
[2019-01-18 18:13:03] <Spyroaddict> join the site
[2019-01-18 18:13:29] <Quikngruvn> It typically can take 2-3 days to approve applications, since it's a tedious manual process.
[2019-01-18 18:14:06] <Spyroaddict> I get that but chances of approval is what im concerned about
[2019-01-18 18:14:32] <Spyroaddict> like what are the chances of denial and approval
[2019-01-18 18:14:46] <bluesoul> it's not an odds thing
[2019-01-18 18:14:55] <Quikngruvn> If you put in the required information and don't have an offensive username, just about 100%.
[2019-01-18 18:14:56] <Spyroaddict> ok so what is it
[2019-01-18 18:15:19] <Quikngruvn> I say "just about" since there's still the possibility of being accidentally declined.
[2019-01-18 18:15:24] <Quikngruvn> But in any case, you can just reapply.
[2019-01-18 18:15:39] <Quikngruvn> It's not like you get one chance and if you blow it, you're screwed.
[2019-01-18 18:15:49] <Spyroaddict> and what is the minimum requirement i know age and no offensive username
[2019-01-18 18:15:58] <Spyroaddict> and im 15 so i meet the age

Apparently I'm supposed to /msg an admin about registering my nickname? Sorry to be an inconvenience, I'm just having a hard time navigating this site to do what I want to do.

Now, to vote on SCPs on the website, you're going to have to become a member of scp-wiki.net, which is different from having a wikidot account.

[2019-01-21 21:43:49] <Oke_Master> I'm trying to join the site and have just been denied cause I looked over the newbies guide, I'm trying to rejoin now that I have read it over but it says that all I need to put in the application is the pass code

but I don't understand what it means by pass code because the word pass code is not in the newbies guide, where do I look for the pass code?

[2019-01-21 21:44:33] <ARD> the passcode is indeed in the newbies guide

[2019-01-21 21:44:50] <ARD> we just didn't make it CTRL-F' able

[2019-01-21 21:45:11] <Oke_Master> What exactly is it then?

[2019-01-21 21:45:32] <Oke_Master> I thought it be labeled under pass code or something like that.

[2019-01-21 21:45:57] <ARD> Nope, if you read it you'll see where it says "passcode" but we put a little sneaky in there to ensure you can't just CTRL-F 'passcode'

[2019-01-21 21:46:43] <Oke_Master> OK i'll reread it again, thank you so much!

I followed the instructions on the Guide for Newbies page with regards to the passcode. If it's relevant, my username is the same on wikidot as here.  [2019-01-22 23:15:48] <KindlyTurtleClem> hey is there anyone that can unlock metadata for collaborations? Me and Floppy did SCP-3739.
 [2019-01-22 23:15:56] <ARD> gimme a minute
 [2019-01-22 23:16:24] <ARD> KindlyTurtleClem: unlocked, ping me when youre done
 [2019-01-22 23:17:30] <KindlyTurtleClem> ARD oh uhh how do I co-author exactly?
 [2019-01-22 23:17:39] <ARD> Lol
 [2019-01-22 23:18:10] <ARD> KindlyTurtleClem: it's pretty straightforward
 [2019-01-22 23:18:15] <ARD> Start with this syntax: "||~ Name||~ User||~ Type||~ Date||"
 [2019-01-22 23:18:21] ← trets quit (nobody@tells.me.nuffin): Quit: Connection closed for inactivity
 [2019-01-22 23:19:07] <ARD> Replace "~Name" with the ending URL of your article - in your case, it's 'scp-3739'. Replace '~User' with your username. Replace '~Type' with 'Author'. Remove '~Date' outright. HOWEVER, it is CRITICAL that you LEAVE THE SEPARATING PIPES IN PLACE.
 [2019-01-22 23:19:09] ← FloppyPhoenix quit (uid300561@synIRC-B3FCAA6E.charlton.irccloud.com): Quit: Connection closed for inactivity

 [2019-01-22 23:19:36] <KindlyTurtleClem> the edit meta section?
 [2019-01-22 23:19:51] <ARD> Yes, you have to edit the page
 [2019-01-22 23:20:20] <ARD> Navigate to the next smallest SCP number before 3739 in the listing. Add a newline under it. Put the syntax block you filled out into that newline.
 [2019-01-22 23:20:47] <ARD> To add a coauthor, just add a newline under your syntax block and add an identical copy, except with the ~User field changed to your coauthor's username

 [2019-01-23 09:30:21] <rounderhouse> What do you need?
 [2019-01-23 09:31:39] <funnyman> I've been trying to become a member, but I can't

find the site passcode.

[2019-01-23 09:32:01] <funnyman> I've checked through the guide and read it over a couple times, but nothing about a site passcode is there.

[2019-01-23 09:32:40] <WrongJohnSilver> Hey! Yes, the passcode really is in the Guide for Newbies.

[2019-01-23 09:33:08] <WrongJohnSilver> And it's not really hidden; just read carefully.

[2019-01-23 09:34:15] <funnyman> ah. found it.

[2019-01-23 09:34:22] <rounderhouse>

[2019-01-23 09:34:28] <funnyman> thats smart, spacing it out so nobody can just ctrl+f it

[2019-01-23 09:35:16] <funnyman> oh, and one more thing, rounderhouse

[2019-01-23 09:35:25] <rounderhouse> Yes?

[2019-01-23 09:35:51] <funnyman> next chance you get, listen to "comfortably numb" by pink floyd

[2019-01-23 19:13:44] <DrChandra> I'd prefer a web based one, and the link on the chat page to Chatzilla (I use firefox) is out of date.
[2019-01-23 19:13:51] <DevEuphonium> You could try kiwiirc
[2019-01-23 19:13:54] <rounderhouse> ircccloud is web-based.
[2019-01-23 19:14:20] <DrChandra> I started too, but the SynIRC server needs a password and I don't know it.
[2019-01-23 19:14:43] <DevEuphonium> SynIRC doesn't need a password
[2019-01-23 19:14:48] <rounderhouse> Hm. That can't be right.
[2019-01-23 19:16:31] <DevEuphonium> If you go to <https://kiwiirc.com/nextclient/> you can just pick SynIRC from the list
[2019-01-23 19:16:55] <DrChandra> Okay, I've got Kiwi open in another tab now. Can someone walk me through getting connected?
[2019-01-23 19:17:29] <DevEuphonium> Sure

[2019-01-23 19:18:48] <DrChandra> it says "took too long to connect" which is the same problem I got on mibbit.
[2019-01-23 19:19:34] <DrChandra> Second try it says 'unknown domain name or host'
[2019-01-23 19:19:41] <DevEuphonium> Well that's weird

[2019-01-23 22:15:05] <Taffeta> please stop pretending that plagiarism is the same thing as exact character-for-character replication

[2019-01-23 22:15:18] <Taffeta> frankly this appeal is going to go nowhere if you try to split nonexistent hairs

[2019-01-23 22:18:24] <Taffeta> I don't know how to explain to you that on a site founded on the creation of original content, plagiarising someone else's writing is basically a shit in staff's collective face.

[2019-01-23 22:19:15] <Baronjoe> i know that. I understand that. Like I said, I made original content myself for this site. I love its community.

[2019-01-23 22:19:33] <Taffeta> And you still somehow decided that filching someone else's content was okay.

There's a picture that sort of sparked the whole tumblr story, and I feel leaving it out would be a shame, but including it with anything that even vaguely resembled the tumblr story would be recognizable to anyone who's read the story.

[2019-01-24 10:03:19] <Quikngruvn> You can't upload to a forum post directly.
[2019-01-24 10:03:32] <Quikngruvn> Why not just post a link to a URL?
[2019-01-24 10:04:33] <RiftStudier> because I was told that all images should be collapsed. And there isn't an online version of the image.

[2019-01-25 12:11:17] <Quikngruvn> OK, whatcha got?
[2019-01-25 12:11:44] <Coffee> I am a Twitch Affiliate on Twitch. I play a lot of
games such as League of Legends, as well as SCP Secret Labratory. So my question
is. Can I make personal sub emotes depicting Certain SCP characters? They're
entirely unique and drawn, so its not like its just a photo or anything. It would
be the ones from secret labs such as 096, 173, 106, ETC
[2019-01-25 12:12:10] <Coffee> I can provide an example too, if posisble
[2019-01-25 12:13:03] <Quikngruvn> I can tell you right now 173 is right out, 'cos
of the particular licensing on its image.
[2019-01-25 12:13:51] <Quikngruvn> There are a few other articles with similar
restrictions, though I don't think 096 is one of them.

[2019-01-25 12:14:16] <Lily> 173's fine if you draw it
[2019-01-25 12:14:23] <Lily> You just can't use the OG image
[2019-01-25 12:14:50] <Quikngruvn> Oh really, Lily? I thought it was any derived likeness.
[2019-01-25 12:14:52] <Coffee> Here hang on. Lemme make a quick link for you guys to see them. Thank you.
[2019-01-25 12:15:10] <Quikngruvn> Which, I defer to Lily here since she's actually on Licensing.
[2019-01-25 12:15:59] <Lily> Quikngruvn: nah just the actual statue
[2019-01-25 12:16:19] <Lily> It's why the CB 173 is fine to sell

[2019-01-26 04:42:20] <Initiate> Heya, I've had some posts in the brainstorming
boards edited to include spoiler blocks recently due to being too long. I'm
wondering what the official "too long" limit is for posts on those boards?
[2019-01-26 04:42:49] <Initiate> I don't think the edits were unwarranted or
anything, just wondering what the length I should be aiming for should be

I don't think. mainly it's for, like, users that might be browsing Recent Posts -
scrolling past long posts, particularly if on mobile, can be inconvenient
[2019-01-26 04:48:41] <BoogeyMan23> generally if it's more than a few paragraphs or
a handful of lines, you might consider putting some of it in a collapsible
