

# YOU'LL GET A LOT OF MILEAGE OUT OF ALL THIS FUN.

*VIDEO GAMES, MOVIES, MUSIC, AND MORE*

With Visteon's new Dockable Entertainment featuring Game Boy® Advance system, passengers have more entertainment options than ever before. Simply dock it and your passengers are ready to play video games, watch movies or listen to music. And, when you want to add to your list of gaming choices, Game Boy Advance has over 750 titles available.

Because it's dockable, you can use the system almost anywhere. On the road, at home, at sporting events or your favorite coffee shop — the possibilities are nearly endless.

## Dockable Entertainment featuring Game Boy® Advance package includes:

*Multimedia Capability — Plays Nintendo® Game Boy Advance games, DVD movies, audio CDs, MP3 and WMA files*

*Infrared Transmit/Receive Unit — For remote control and wireless headphone usage*

*Visteon Wireless Game Controller, Wireless Headphones & Remote Control*

*Overhead Docking Station*

*Auxiliary Jacks — Input/output dual functionality*

### Optional Equipment:

*Additional wireless headphones*

*Battery charger/AC adaptor*

*Additional battery*

*Carrying case*

## DOCKABLE ENTERTAINMENT featuring

**GAME BOY ADVANCE**

# DOCKABLE ENTERTAINMENT featuring **GAME BOY ADVANCE**

## Overhead Docking Station

Visteon's Dockable Entertainment featuring Game Boy Advance system is designed with a unique coupling mechanism that eliminates the need for awkward mounting straps or hardware. The portable media player docks with one easy click. Quickly and easily undock the portable media player and take it with you for added security.

## Low-Profile Design

Low-profile laptop style design is perfect for overhead installation and integrates seamlessly with vehicle design.

## Integrates with Vehicle's Audio System

System utilizes the vehicle's existing audio system for improved audio output.

## Compatibility

Dockable player is compatible with all previous Visteon docking stations.

## Economical

One portable media player can be used in different vehicles. Simply install an overhead docking station in each vehicle.

## Wireless Headphones

Sound from games, movies or music is directed only to whomever is using the system.

## Visteon Wireless Game Controller

Eliminates cumbersome cord tangling.

## Large Screen

10.2" flip-down display.

## Portable DVD Player

Plays Nintendo® Game Boy® Advance games, DVD movies, audio CDs, MP3 and WMA files.

## Top-Load Gaming Slot

Allows for easy insertion and removal of game cartridges.

## Multiple Players

High-speed, 6-pin serial port lets you connect additional handheld Game Boy Advance systems. Using high-speed, Game Link® cables up to 4 can play with a multiplayer game.

## Versatility

Auxiliary input jacks permit use of other portable players, game units or camcorders.
