

# Dockable Entertainment featuring **GAME BOY ADVANCE**

## Play. Watch. Listen.

With the ability to play video games, movies, music and more in the vehicle, Visteon's Dockable Entertainment featuring Game Boy® Advance is the most complete dockable entertainment system available. It combines the versatility of our existing premium in-vehicle player with the world's most popular video game platform – so you can do it all!

### Portable DVD Player

Plays Nintendo® Game Boy Advance games, DVD movies, audio CDs, MP3 and WMA files.

### Wireless Headphones

Sound from games, movies or music is directed only to whomever is using the system.

### Visteon Wireless Game Controller

Eliminates cumbersome cord tangling.

### Versatility

Auxiliary input jacks permit use of other portable players, game units or camcorders.

### Multiple Players

High-speed, 6-pin serial port lets you connect additional handheld Game Boy Advance systems. Using high-speed Game Link® cables, up to 4 can play with a multiplayer game.

## Dockable Entertainment featuring Game Boy Advance package includes:

- **Multimedia Capability** — Plays Nintendo Game Boy Advance games, DVD movies, audio CDs, MP3 and WMA files
- **Infrared Transmit/Receive Unit** — For remote control and wireless headphone usage
- **Auxiliary Jacks** — Input/output dual functionality
- **Visteon Wireless Game Controller, Wireless Headphones and Remote Control**
- **Overhead Docking Station**

## GAME BOY ADVANCE

### Quality Engineering.

Visteon's Dockable Entertainment featuring Game Boy Advance system delivers factory-style fit and appearance, OEM-grade performance and the ability to quickly and easily undock the portable player for use in virtually any location. Its unique coupling mechanism eliminates the need for awkward mounting straps or hardware, and the portable player docks with one easy click.

#### Top-Load Gaming Slot

Allows for easy insertion and removal of game cartridges.

#### Low-Profile Design

Low-profile laptop style design complete with 10.2" flip-down display is perfect for overhead installation and integrates seamlessly with the vehicle's design.

#### Compatibility

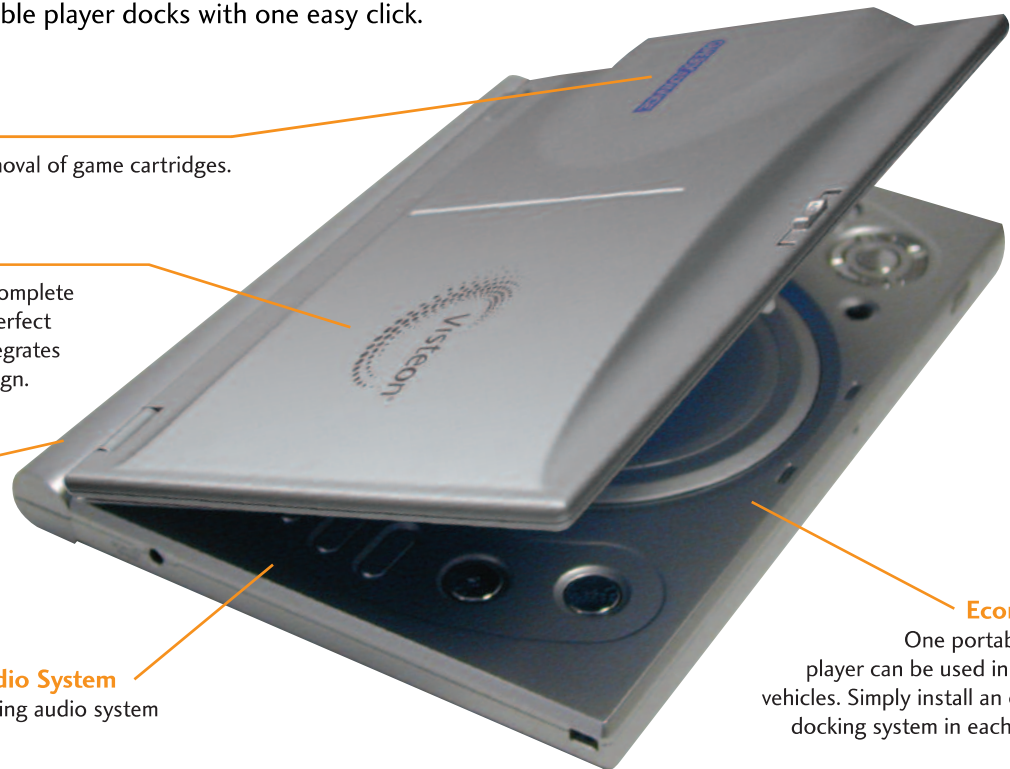

Dockable player is compatible with all previous Visteon docking stations.

#### Integrates with Vehicle's Audio System

System utilizes the vehicle's existing audio system for improved audio output.

#### Economical

One portable media player can be used in different vehicles. Simply install an overhead docking system in each vehicle.

### OPTIONAL EQUIPMENT:

- Additional wireless headphones
- Additional battery
- Audio/Video accessory connectors
- Battery charger/AC adaptor
- Carrying case

*The Dockable Entertainment featuring Game Boy Advance system is covered by a 3-year/36,000 mile (new vehicles) and a 1-year/12,000 mile (used vehicles) limited warranty when installed by an authorized technician.*
