

# DOCKABLE ENTERTAINMENT FEATURING GAME BOY® ADVANCE

Visteon continues to be at the forefront of in-vehicle entertainment by introducing its latest family entertainment system that integrates gaming functionality. Through an exclusive partnership with Nintendo, Visteon has developed its Dockable Entertainment featuring Game Boy® Advance.

Like Visteon's Dockable Family Entertainment System, this product contains a portable multimedia device that can be detached from your vehicle and taken with you. Then, when you want to "hit the road", you can simply dock it into the overhead docking station. Additionally, this new system integrates Nintendo's Game Boy Advance – offering occupants the excitement of in-vehicle gaming.

FEATURES	BENEFITS
<ul style="list-style-type: none"> <li>Application for factory-installed or accessory application.</li> </ul>	<ul style="list-style-type: none"> <li>Increases consumer appeal and demand for video features due to increased utility.</li> <li>Eliminates the need for awkward mounting straps or hardware associated with competitive retail solutions.</li> </ul>
